HYDROCARBON BLEND REFRIGERANT

K-10

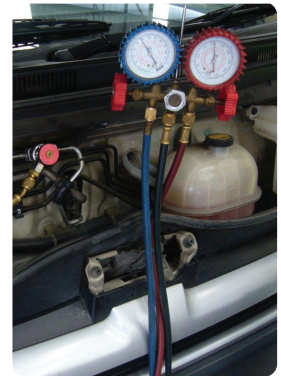

K-10  
REFRIGERANT

## The Premium Hydrocarbon Blend Refrigerant

### Environmentally friendly Hydrocarbon Blend Refrigerant

Designed to replace ozone-depleting, global-warming refrigerants, K-10 Refrigerant Products are made of natural, organic compounds – making them:

- Highly efficient
- Non-corrosive
- Non-global warming
- Non-ozone depleting
- Non-toxic
- Safe to use

- Drop-in Replacement for R12 & R134a
- Alternative to HFC R134a
- Non ozone depleting substance
- Compatible with all oils
- Higher efficiencies
- Accelerated temperature pull-down
- No cylinder rental or deposit
- Available with or without UV dye
- Colder vent temperatures
- Lower pressures reducing heat & load on compressor
